## GET INSPIRED

YOUR IDEAL SPACE IS  
A REFLECTION OF YOU

What speaks to you? Do you see a golden sunset and feel awestruck? Do you see a colorful blanket your grandmother made for you and feel warmth? Do you take a walk in the woods and feel a sense of peace? Think about places, people, and things that you love. Then think about your favorite colors and textures—the sights, sounds, and smells that engage and excite you. Take snapshots, pull pictures from magazines, and share this inspiration with your Home Depot designer.

## GET INSPIRED

It's time to envision your ideal kitchen, bath, office, or any other space in your home. To ensure a successful design consultation, it's important to be well prepared.

### TOP FIVE ITEMS TO BRING TO A DESIGN CONSULTATION

- 1. SCOPE OF WORK**  
Determine the parameters and budget of the work you wish to do. Will you be using the existing footprint or adding square footage? Will you need to relocate any plumbing, gas lines, or electricity? Not sure? Your designer will help.
- 2. HOW YOU USE YOUR KITCHEN OR REMODELED SPACE**  
Consider the functionality of your current and future lifestyle. Do you want a chef's kitchen or an open floor plan for entertaining? If you're redoing a bath, do you want efficiency for starting your days, or a more spa-like atmosphere? For multipurpose spaces, think of current technology and storage accessibility.
- 3. FEATURES THAT FIT YOUR LIFESTYLE**  
Your new space needs to conform to your unique way of living. Think about the way your family will use the space. Everything from parties to pets will dictate the design. Storage and organization details are critical in reducing clutter and making spaces more livable.
- 4. STYLE INSPIRATION**  
To achieve a look and feel you'll love, explore the things that inspire you most. Browse Pinterest, Instagram, and design magazines to collect inspirational images, color swatches, and samples of materials to share with your Home Depot designer. Snap photos of or bring in momentos and personal things you've collected to help define your look and style.
- 5. PRIORITIES AND MUST-HAVES**  
Time to assess your needs. Determine your preferred door style and finish first. Then list the features you can't live without, ranked by importance. Appliances for a kitchen should be chosen before functional and style details. For baths, fixtures and functional details are key. For offices and any other spaces, maximizing utility benefits you the most.

## FURNISH ANY SPACE WITH FUNCTION AND STYLE

Cabinetry can make a huge difference in your home well beyond just the kitchen and bathroom. The Home Depot® designer can work with you to find stylish and functional uses for storage anywhere in your home. Built-in cabinetry in your living room eliminates clutter and can create a clean and cozy look. Keep entryways and mudrooms smart and organized with plenty of storage, coat hooks, shelves, and a bench where you can kick off your shoes and tuck them away. A window seat is the perfect place for additional storage and curling up with a good book. And, everything doesn't need to be built in. Keep in mind that American Woodmark's full range of cabinets, door styles, and finishes can be used to create unique stand-alone furniture pieces to fit any space—and your life—perfectly.

## FIND YOUR LOOK

CREATE A SPACE THAT FITS YOUR LIFE:  
START WITH FUNCTIONALITY,  
THEN ADD PERSONAL DETAILS  
THAT ARE UNIQUE TO YOU

Your favorite colors, textures, personal treasures, and remodel pictures from magazines and online will all come together beautifully to create your new space. Share how you plan to functionally use the space with your Home Depot designer. Then, share your collection of inspirational looks, thoughts on color, and a rough measurement of the space. Get ready for a unique look that's all you!

# FIND YOUR LOOK, MAKE IT YOU

Your remodel should reflect who you are and how you live. You make choices every day that are great clues to your personal style. Anything that defines a style you are drawn to could be the spark that creates a living space that will literally change your life. Are you more contemporary or traditional? Or maybe somewhere in between? Once you gather inspiration and determine the feeling you want to create, The Home Depot® designer can help select the perfect American Woodmark door style, finish, and details to complement it. ## PLAN YOUR SPACE FOR HOW YOU LIVE

### CONSIDER YOUR NEEDS TODAY AND TOMORROW

The real beauty of a new kitchen or bath exceeds just how physically beautiful it is. Think about how you're going to use the space today and tomorrow. Consider everything—from energy-saving appliances and efficient food and prep work zones to stain-resistant floors, lighting, and a space that may serve as a home office with the latest technology support. You'll love it when a plan comes together!

# PLAN YOUR SPACE WITH DETAILS IN MIND

Are you starting a family? Do you already have one? Are you upsizing or downsizing? Think about your life—what you need now and in the future. Do you usually entertain other couples or the little league team? Share your needs with The Home Depot® designer. Then choose American Woodmark cabinets, accessories, and remodel details that are right for you. Take advantage of American Woodmark's online tools to smooth out the process. Find our handy measuring guide, budget calculator, and the ENVISION 3D Remodeling Tool at [woodmarkcabinetry.com](https://www.woodmarkcabinetry.com).

## ACCURATE MEASURING IS CRITICAL

Arrive at your first consultation with general measurements of your space. In some cases, The Home Depot® designated remodel professional will visit your home for more precise measuring before your cabinets are ordered. ## PREPARE TO LIVE WITHOUT A KITCHEN

The remodel process is disruptive, but you'll love the results. During the demo and installation of your kitchen, have another place in mind for preparing simple meals and refrigerating food. A garage, mudroom, or laundry room can work temporarily. This is a good time for takeout and dining at neighbors' houses.

# PLAN YOUR SPACE

## *Budgeting and assessing your needs*

### GETTING THE MOST BANG FOR YOUR BUCK

You'll get the most out of your remodel investment dollars when you start with an emphasis on functionality, complemented by the look you want to achieve. The Home Depot® designer will help spec appliances first so your cabinets can be ordered with all dimensions in mind. On a tight budget, choose the most important things first and other add-ons or upgrades later. For example, the must-haves now would be cabinetry, primary organization items, appliances, moldings, faucets, sinks, and countertops. Details like special hardware, lighting fixtures, and even backsplashes can be added later while controlling costs in the shorter term.

But don't sacrifice the must-haves or you'll end up with something called *reverse buyer's remorse*. This is when homeowners fail to invest in important features and regret it later.

### FUNCTIONALITY IS KEY

Your new kitchen must be laid out based on the way you live and prepare meals. The value of a kitchen far exceeds just cooking. It is the heart of the home: a place for entertaining, dining, doing homework, and, today, taking Zoom calls. Keep charging stations in mind for your technology. Lighting is key for reading and video conferences. And don't forget organization items so you can stay on top of life and work!

### ADD VALUE TO YOUR HOME

Cost is often what stands between many and their dream remodel, but when you consider it's an investment that adds value, deciding to remodel is a much easier choice. The *Hanley Wood Remodeling 2022 Cost vs. Value Report\** shows that a major kitchen remodel recoups, on average, 56.1% of the investment. And a midrange bathroom remodel, on average, recoups 58.9% of the initial investment.

Try our handy online budget calculator to help plan your remodel at [woodmarkcabinetry.com](https://www.woodmarkcabinetry.com).

## MAKE YOUR ROOM WORK FOR YOU

Rooms that perform double or triple duty can help make the most out of your home's layout. Multipurpose spaces are a huge trend in home remodels. These spaces reimagine the functionality of your home to make the most out of your square footage. Don't want to give up your spare bedroom to make that home office? You don't have to. There are clever ways your designer can build a space to go from a chic office where you take Zoom calls and keep your family organized to a cozy bedroom that makes guests feel right at home.

Tired of shoes being kicked off by the door and coats strewn about the house? Create a space that keeps all the dirt and mess in one room. A combination laundry and mudroom equals major functionality, and let's not forget our furry friends. Adding a pet area for all their food, grooming, and playtime accessories keeps your home organized and tidy.

The possibilities are endless. With the help of your Home Depot® designer, you can create a space that meets every family member's needs, including four-legged ones.

The Home Depot® designer can find the best ways to take your space and transform it to fit all your needs. Create a pet area so your furry friends can have their own little slice of paradise.

Utilize open spacing for long hanging items such as coats and leashes to make space for every member of your family. Adding baskets gives loose items a home without creating extra clutter.

## CHOOSE DETAILS AND FINISHING TOUCHES

Your choices of hardware, moldings, glass door panels, lighting, and fixtures pull it all together for a personalized look. American Woodmark has a range of many decorative details that will add “wow” to your finished space. Details like crown molding, glass doors, and carefully selected hardware will receive compliments for years to come.

For more inspiration, tips, and the complete online remodel guide, visit [woodmarkcabinetry.com](http://woodmarkcabinetry.com).

PULL IT ALL TOGETHER  
WITH MOLDINGS

Moldings give your cabinets and overall space a finished look. They provide more than an architectural accent; they define the attitude of your space and complete your look. American Woodmark has a variety of moldings to fit any style. Whether you're accenting a contemporary space, looking for a more traditional feel, or are into a vintage French style, we have it—and everything in between. Work with your Home Depot kitchen designer to find the perfect molding detail for your space.

MOLDING BUILDUPS

Combined separate molding pieces create "molding buildups." Different combinations create many looks.

HARDWARE SELECTIONS

Like jewelry, hardware is the personal touch that makes a living space truly yours, reflecting your unique personality and way of life. American Woodmark has a spectrum of hardware looks: traditional designs with the look of aged metal and pewter with brushed gold highlights; old-world pieces expressed as bronze; and brushed elements that relate perfectly to today's stainless steel finishes. American Woodmark's new collection promises to complement your look with style, no matter what it is.

# THE *joy* OF getting organized

*Get cooking with a more organized space!*

Whether you view your kitchen as a space to entertain or to decompress, being organized is essential. What's the point of remodeling if you don't have kitchen needs organized so that cooking and entertaining are a breeze? Spend more time cooking and entertaining and less time searching for things like the potato peeler, corkscrew, and salad spinner. Get organized and create your perfect kitchen.

## CABINETS THAT'S BUILT TO LAST

### OVER FOUR DECADES OF DOING IT RIGHT

When you choose American Woodmark for your remodel, you've picked a trusted partner with over 40 years of kitchen and bath experience at The Home Depot®. American Woodmark prides itself on delivering quality stock and semicustom cabinetry along with design support and attentive customer service you can count on. Our cabinetry is an unbeatable value that can create spaces that make a lasting impression for years to come. A wide variety of options like all-plywood construction, soft-close doors/drawers, and a full range of decorative accents allow you to create a space that's all you. From inspiration to installation, we're with you every step of the way.

### WOOD AND FINISHES AGE; IT'S ONLY NATURAL

While we match wood grains as closely as possible, variations are part of what makes our quality wood products so distinctive and beautiful. Over time and exposure to sunlight, smoke, and chemicals, some cabinet finishes naturally fade or vary from their original color. Be sure to order all the cabinetry you need at the same time because cabinets purchased at a later date may not exactly match cabinets installed today.

## OUR CORPORATE RESPONSIBILITY

As a leading manufacturer of cabinetry in the U.S., American Woodmark® Corporation is committed to conducting business in a manner that supports the sustainability of the environment. American Woodmark recognizes that our business both affects and is affected by changes in the Earth's climate. As such, AWC has created a Path to Sustainability. This program consists of three areas of focus: our associates, our carbon footprint, and the planet. We also believe it is our duty to give back to the communities we feel have given so much to us. That's why The American Woodmark Foundation was formed in 1995 and focuses on supporting the communities in which we live and work.

# THE NATURAL COLOR AND BEAUTY OF WOODMARK'S DOOR STYLES AND FINISHES

Every cabinet door created by American Woodmark is carefully selected. When it all comes together, homeowners are certain to be satisfied with the look, style, and “wow” of their new living space.

## CHERRY

Cherry is a close-grained, multicolored hardwood with occasional pin knots and fine grain variations appearing as curls and waves. Streaking, knots, and subtle color variations are what give this wood its unique character. Its color typically darkens some over time.

## MAPLE

Maple is an exceptionally hard, finely grained wood species with a fine, even texture. Many love the darker stains that moderate the color variance and lighter stains that mellow with golden hues over time.

## PAINTED

Hand-applied so that every door and space is unique, painted and glaze finishes perfectly combine hardwoods and engineered materials for superior stability, coverage, and durability. While consistent, visible features like joint lines and woodgrain are expected with this finish, as the hand-applied paint highlights natural elements.

## DURAFORM®

Duraform uses foils and coatings bonded to composite wood material, creating cabinets that are highly resistant to warping, heat, humidity, and fading. This innovative process makes it extremely durable and easy to clean. Duraform finishes allow Duraform cabinet doors to exhibit the same styling and detail found in solid wood doors.

## DURAFORM® TEXTURES

Relying on today's latest technologies, these stylish textures have been created for long-lasting and durable use. This range of finishes bonded to composite wood appeals to the designer and homeowner alike with its versatility and ability to create a spectrum of today's latest styles.

### STEP 1—GET INSPIRED

- ☐ Go to **woodmarkcabinetry.com** for more inspiration and view our full catalog of inspiring remodel ideas
- ☐ Explore ideas on Pinterest, FB, IG, and other home design sites to gather photos of rooms with must-have features
- ☐ Keep a scrapbook of ideas that reflect your personal style
- ☐ Visit The Home Depot® to view American Woodmark product selections
- ☐ Make a list of the things that annoy you about your current space as well as a list of must-have features and details
- ☐ Consider how you might alter your floor plan to accommodate a more functional space

### STEP 2—FIND YOUR LOOK

- ☐ Think about your personal style and define whether your look is more traditional, contemporary, craftsman, cottage, or otherwise
- ☐ Work with your designer to narrow your choices of door styles and finishes that achieve your look
- ☐ Order American Woodmark® door samples at **woodmarkcabinetry.com** so you can view them in the actual light of your space
- ☐ Compare your choices of finish with the paint colors in your home to make sure they are complementary
- ☐ Think about how the door styles fit with the furnishings in your home
- ☐ Consider and choose complementary appliances

### STEP 3—PLAN YOUR SPACE

- ☐ Measure the space you are remodeling
- ☐ Sketch out a plan using the ENVISION 3D Remodeling Tool at **woodmarkcabinetry.com** and share with your Home Depot designer
- ☐ Schedule an in-store appointment with a Home Depot kitchen designer
- ☐ If you are using a remodeling contractor, schedule an in-home visit to discuss your plans
- ☐ Create a budget that includes cabinets, countertops, flooring, lighting, fixtures, appliances, paint color, backsplash tile, and labor
- ☐ Anticipate a professional remodel expert visiting your home to measure your space precisely

### STEP 4—CHOOSE DETAILS

- ☐ Once you've decided on your layout, door style, and finish, it's time to select the decorative details
- ☐ Consider the custom organizational features that will store dishes, utensils, cookware, small appliances, pantry items, and anything else that is a staple for you
- ☐ Discuss the molding, glass features, and other details that will enhance your cabinets and make them fit your home décor
- ☐ Select the hardware that will set your cabinets apart while adding the perfect functionality you're looking for
- ☐ Finalize your decisions and get ready to start your remodel

### STEP 5—LET'S MAKE IT HAPPEN

- ☐ Once you sign off on your plan, The Home Depot® will coordinate with American Woodmark® to get your cabinets manufactured to your specifications
- ☐ We will communicate with you every step of the way to manage your expectations and help you schedule each phase of your project
- ☐ When your cabinets are ready to be delivered, we will notify you so you can coordinate with your contractor or installer
- ☐ Once you see your space coming together, we will follow up with you to make sure everything was delivered and installed to your satisfaction
- ☐ Now it's your turn to tell your friends about your remodeling experience
